

Beach Enhancement Communication

DoubleTree by Hilton Resort & Spa Marjan Island

Beach enhancements will commence from 28th February to 24th March 2025. Our beach will be partially closed from 28th February to 5th March, followed by a full closure from 6th March to 24th March. During this enhancement period from 28th February, we will provide alternative beach access with transportation for our guests on Marjan Island. All other facilities, including the children's play areas, water park, and seven pools, will remain fully operational.

Guests will have complimentary access to Hampton Beach at Marjan Island, which is fully equipped with sun loungers, towels, and a selection of food and beverages. A dedicated shuttle service will run every 15 minutes between 9 AM and 6 PM, ensuring seamless transportation between the resorts, with a drive time of approximately 5 minutes (1 KM distance). While the enhancement work will take place 24/7, noise levels will vary depending on the project phase, and we will do our best to minimize any disruption.

Our team will be available on-site to assist with any inquiries and ensure a smooth experience.
