Dear Collaborator:

We are pleased to announce that Sol Palmeras will continue updating its rooms. Once the remodeling of the initial 164 rooms is completed, we will begin the second stage on July 1, 2024 with the renovation of another 136 rooms in the main building.

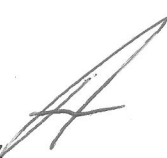

Attached is a photo of the project of the Room that will be the same as that of the 1st stage.

The work will be done in phases and taking into account complete blocks of the building that will be isolated to reduce inconvenience to the minimum possible level. Completion of the improvements is expected on April 30, 2025.

We apologize in advance for any inconvenience we may cause and appreciate the usual support so that customers and sales channels are informed in a timely manner about these improvement actions.
